Revenue, Net Profit, ROE and ROCE trend

Balance sheet composition and latest cash-flow waterfall

Pros	Cons
Revenue growing at above 15% CAGR over 5 years reflects strong business momentum	Operating margins declining for 3 consecutive years suggest pricing or cost pressure
Operating profit margin above 25% indicates strong pricing power and cost discipline	Return on capital employed below 10% suggests the business is not generating sufficient returns on invested capital
Net profit compounding at above 20% over 5 years creates significant shareholder value	Net debt exceeding 3 times EBITDA is a high leverage ratio and limits financial flexibility

Capital Allocation: Pre-Revenue
